

AD UNDAS

- Solaris Korrigert

Opera in 2 acts

(Score in C)

Libretto: Øyvind Rimbereid, edited by Lisa C. B. Lie and Øyvind Mæland

Music: Øyvind Mæland

NOTES:

AD UNDAS – SOLARIS KORRIGERT

Instrumentation:

3 Flutes (2nd doubling Alto Flute, 3rd doubling Piccolo)

1 Oboe

3 Clarinets in Bb (3rd doubling Bass Clarinet and Contrabass Clarinet)

2 Bassoons (2nd doubling Contrabassoon)

4 Horns in F

1 Trumpet in C

3 Trombones (3rd playing Bass Trombone)

1 Tuba

3 Percussionists:

1st Perc.:
This music is copyrighted material

Toms (4) and Temple blocks (5), 2 very high Wood blocks, Gran cassa (large), Vibraphone, 1 Timpani with skin (28"/32") with 4 crotales (D4, G4, D5, G5), 2 Suspended cymbals (medium + high), Sandpaper (slightly coarse)

2nd Perc.:

1 large Tamtam, Marimba (range from C2), 1 Oil drum with pedal, Chimes, Flexatone, 2 Glasses (one wine glass tuned in quarter-sharp middle C, and the other one an octave higher)

3rd Perc.:

Sandpaper (rather fine), small Tamtam, Slapstick (whip), Crotales (two octaves), 2 high Gliss. gongs (upward gliss), 1 Chain (thick), 1 Slit drum (large)

1 piano (with the lowest C and Db prepared with some rubber in between, at the very end/beginning of the string). The pianist might also play the celesta, if there is space.

6 soloist singers

Choir, (Min. 3S, 2A, 2T and 2B)

Strings

1st vln., min. 6

2nd vln., min. 6

Vla., min. 5

Vcl., min. 4

Cb., min. 3 (min. one of them with 5 strings)

General information:

Instruments normally playing vibrato, should generally play non vibrato, or with very little vibrato, unless anything else is specified.

X-shaped noteheads often indicate sounds of indefinite pitch (or noise), such as "air noise" in the wind instruments, etc. If this often percussive sound could be played various places on the instrument, the note is normally placed on the middle note line.

Triangle-shaped noteheads ▲▼ indicate approximately the highest or lowest tone/sound possible on the instrument.

"Boxes" – Some instruments play repeated motifs - notes placed in a square box. There is unfortunately often an arrow missing from these boxes, but they should be repeated either until a cue from the conductor, or until it simply says "stop".

The hexagon-shaped boxes are small "improvisations" (often several in a row). One should repeat the content, but choose and vary the order of the boxes while playing. The tempo, density and dynamics should be varied slightly (unless anything else is specified).

Some abbreviations:

Approx. – f.ex. "Approx. p." = Approximate pitch.

P poss. – piano possibile (as soft as possible)

Harm. gl. – Harmonic glissando

See also the last page "Articulation".

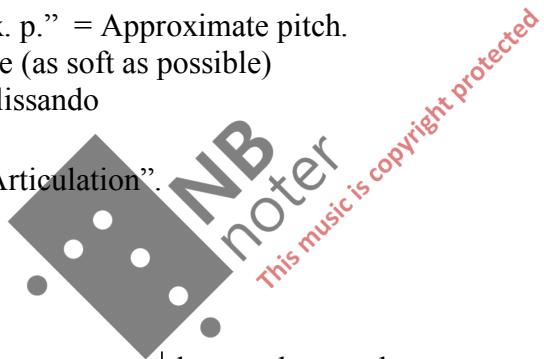

ACCIDENTALS

♯ raises the note by a quarter tone, ♭ lowers the note by a quarter tone, and ♯♯ raises the note by 3 quarter tones.

1/6-tone notation: ♭↑ ♭↑ ♭↓ ♭↓ ♯↑ ♯↑ The arrows that point upwards/downwards show that the tone shall be raised/lowered a 1/6-tone. (see explanation below)

ALL ACCIDENTALS LASTS THE WHOLE BAR.

In cases where the brass instruments' fundamental tone is specified (f.ex. "in G"), or in cases where the strings play natural harmonics (f.ex. natural harmonics "sul G"), it is the harmonics from this fundamental tone that shall be performed. Compared to the well-tempered cromatic scale, the natural 7th (7th and 14th partial tone) will then be notated a 1/6-tone lower than the minor 7th, while the 11th and 13th partial tone will be notated a 1/4-tone higher than the well-tempered 4th and minor 6th. The natural 3rd (5th and 10th partial tone) has no microtonal accidental as this interval is only slightly flat. For the

brass, the harmonics' numbers are indicated (at least the first time they are presented) : 7, 11, 13, 14, (and 10). Sometimes it simply says "nat. harm."

In these parts of the piece, the brass will be played in the manner of a natural horn, a natural trumpet, etc., and one should not correct the intonation with the right hand (horns), or adjusting the valve/slide positions. The position (f.ex. "in G") should not be changed until another fundamental tone shows up, or it says "ordinario".

1/6-tones used in strings, that are *not* natural harmonics, are mostly used in a small motif (a 5- or 6-note motif with 4 different tones (pitches)), in order to notate 1/3-tones. You will find this in Scene 3 – MIRROR-VORLD. The most convenient way of playing these 1/3-tones, is to stop the string with the 1st finger on the lowest of the four tones, and the 4th finger on the highest, only a major 2nd above. The 2nd and 3rd finger will then "automatically" be placed on the remaining 1/3-tones. In some of these cases (especially for the violins), the lowest tone will be performed on an open string, so one only has to use three fingers, not four.

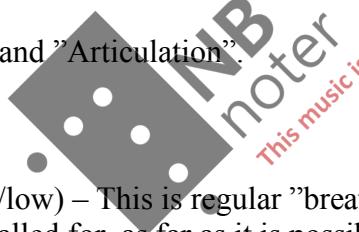

A few places in Scene 3 one might see the symbol "!"#, a reminder that means "be aware of the microtones".

Woodwinds

Air noise (high/medium/low) – This is regular "breath noise", where sometimes a frequency gradation is called for, as far as it is possible on the instrument.

Flute: "Special trill" – This trill/tremolo is obtained by pressing the regular G4, while "improvising" with the two trill keys. Irregular trill/tremolo. Can easily be transposed up one octave.

See also: "Accidentals" and "Articulation"

Brass

Air noise (high/medium/low) – This is regular "breath noise", where sometimes a frequency gradation is called for, as far as it is possible on the instrument.

See also: "Accidentals" and "Articulation"

Percussion/Piano

Temple blocks are notated on the 5 note lines, while Toms are notated in the 4 spaces.

1st perc. has a timpani with 4 crotales on it. One should strike the crotales, but the glissando lines show the up/down movement of the timpani pedal. With a proper timpani (with skin) this should give a subtle, yet clearly audible effect.

See also: "Articulation"

Strings

m.v. – molto vibrato

n.v. – non vibrato

Sul pont. (s.p.) – near the bridge

Alto s.p. – *on* the bridge (no pitch, only noise)

Sul tasto – on the finger board

SUB pont. – behind the bridge. The diamond-shaped noteheads show which string(s) to be used.

Dampen strings. – should result in a muffled sound without clear pitches. The square-shaped noteheads show which string(s) to be used.

Triangle-shaped noteheads: Highest/lowest tone (approximately) on the instrument.

Pizz. arpeggi – The downward-arrow arpeggi (for vlns and viola) and the upward-arrow arpeggi (for cellos and basses) should have a more "nail-like" sound, compared to the other ("regular") arpeggi, where one uses more of the flesh of the finger.

Glissandi - In "Interludium – FISH", the strings perform a lot of parallel glissandi, meaning that the player glides on two strings with a fixed interval (f.ex. parallel gliding minor 7ths). The glissando should be made as *even* as possible, although the player at the same time is constantly crossing between the two strings.

The up/down-pointing arrowheads   above the notes, indicate the direction of the

glissando, and are placed right above the glissando's starting point. Under the arrowhead there is always a chord (two notes): Only one of the notes should be played (big/normal notehead), the other one should only be stopped (no tone) by a finger (f.ex. a minor 7th below/above the other tone).

The other diamond-shaped noteheads (and the very small noteheads), show the rhythm of the string crossings (the lowest of the notes "belongs to" the low string, and the highest to the high string). These pitches are of course all wrong, because of the on-going glissando. In a few cases it is not possible, or it is much easier to switch between the high and low note *on the same string*, f.ex. in the end of the scene (major 2nds).

When the glissando is not followed by another glissando (in the opposite direction), this will be made clear by a single traditional glissando line.

gliss. * - This is a special glissando with artificial harmonics, where the performer must keep the same distance (in cm!) between the two fingers throughout the whole glissando.

Cellos: Scene 2B - KOMMEN du vid meg: This scene has its own "explanation" written in the part.

See also: "Accidentals" and "Articulation"

ARITICULATION

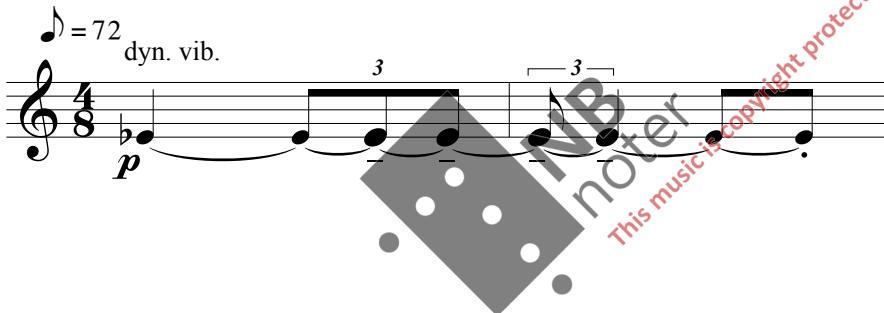

Tremolos/tremolandos/flutter unfortunately use different notation when they shouldn't:
Either a z-like sign, or 3 parallel lines.
Still, they both mean the same, and they are all "unmeasured".

Staccatissimo is notated with a wedge above the note, or with the explanation "staccatissimo".

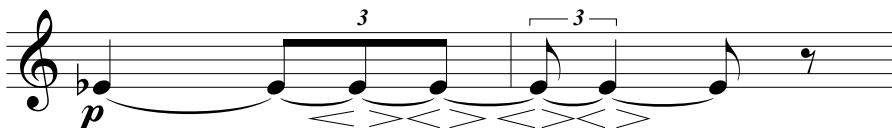

When a note is tied to another note with a staccato, the staccato-note shall not be played,
it only shows where the sustained sound is to be immediately dampened/choked ("as if cut off").

Dyn. vib. :

Dynamic vibrato. This type of vibrato should only affect the dynamic, not the pitch.
The slightly bigger note heads (always with a tenuto sign) indicate the "vibrato tones".
There should be a short, clearly audible crescendo before the note, and a short
diminuendo after it.
The string players only use the bow to create this "vibrato", not the left hand.
Wind players use extra air, without tongue.
Unless anything else is specified, the dynamic (except the "vibrato") should be
sustained until the staccato "cuts" the sound.

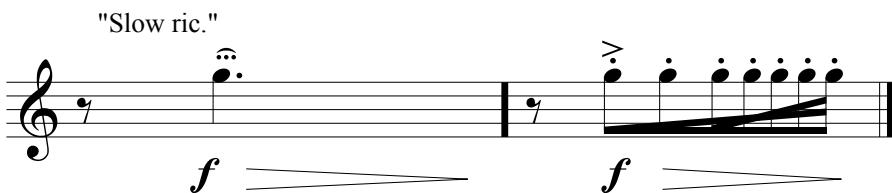

Dyn. vib. could also be notated as you see in this example:

A few places one will find "slow ric." or "quasi slow ric.". This is a very slow ricochet,
or - for the wind instruments - an imitation of a slow string ricochet.

Then, this bar (see under): could be performed like something like this (under):

This page contains musical notation for orchestra and choir. The score includes parts for Flutes 1, 2, and 3; Bassoon Clarinets 1, 2, and 3; Trombone; Percussion 1 (with instructions to let ring); Percussion 2 (with instruction to let ring and marking 'WINE GLASS'); Percussion 3; Piano; Opera Singer; Opera Chorus; Violin I; Violin II; Viola; Cello; and Double Bass. The vocal parts include lyrics in Danish: 'ei- ge[n] world', 'er de[n]', 'og- so on- li in- tern?', and 'o- re[n] world'. The piano part features a prominent bass line. The score is marked with dynamics such as 'ppp' and 'p' throughout. A large gray diamond-shaped graphic is overlaid on the middle section of the page, containing the text 'NB noter' and 'This music is copyright protected' in red.

The musical score consists of multiple staves for various instruments. The first section includes Flutes 1, 2, and 3; Bass Clarinets 1, 2, and 3; Trombone; and Percussion 1, 2, and 3. The second section includes Piano, Soprano Opus, Alto Opus, Violin I, Violin II, Viola, Cello I, and Double Bass II. The score features dynamic markings like piano (p), forte (f), and mezzo-forte (mf). Rhythmic instructions include 'dead stroke!', 'sparsely and secco.', 'irregular rhythm.', and 'unsynchronized.' Specific performance techniques like 'sul pont.' and 'arco' are also indicated. The score is divided into sections by vertical dashed lines, and specific cues are marked with arrows pointing to specific measures or patterns. A large red watermark 'NB noter' is overlaid across the middle of the page, and a smaller note at the bottom right says 'This music is copyright protected'.

Til Liv Opdal

Scene 2B - KOMMEN du vid meg?

Øyvind Mæland

NOTES I. :

n.v. = non vib. *m.v.* = molto vib. *vvvvvib.* = a rather fast increase of vib. *x.s.p.* = extreme sul pont.

The "soft crush" should be a sustained sound, played sul tasto. A mix of noise and clear pitch.

The arrows indicate where the transformations (f.ex. from "x.s.p." to "ord") start.

Up-bow and down-bow signs are merely suggestions, and may be changed.

The ricochets might be slightly "stretched", but they generally just last until they naturally become sustained tones.

pp *mp* *ppp*

52 *n.v.* *n* *n*

57 *p* *subito p* *f* *(not too dramatic)* *let ring* *2+3+8*

NOTES II. :

The small hollow noteheads show where the 4 strings are stopped - always approx. a perfect 5th + a quartertone between each string/finger. Often only the movement of the C-string is notated, though all the fingers follow on the other strings ("all gliss")!

The noteheads shaped as a commas (indicating pizzicato in the area between the left hand and the nut) and black diamonds (regular pizzicato, "ord.") show which of the strings to be plucked.

Here, the nail sign indicates a quick arpeggio with the "nail side" of the finger tip, and it is recommended to use several fingers.

When the triangle-headed note appears in this piece, one should make a quick arpeggio behind (above) the nut.

II. *pizz. between left hand and the nut!*

73 *cont. gl.* $5:4$ *pizz. between left hand and the nut!* $5:4$

p ***f***

76 3

NOTES III. :

s.t. = sul tasto

In the "Tranquillo" part, almost all the notes are natural harmonics. The Roman numerals show which strings to use, and the diamond-shaped noteheads show where on the strings the harmonics should be found. In addition to this, the little "fan"-shaped sign indicates that the note first should be completely stopped by the finger (ord.) - almost staccato - before releasing the pressure (resulting in harmonics).

82

Bass clef, 4/4 time. Measures 82-83. Measure 82 starts with a half note (open circle) on the A line. This is followed by a fermata over a sixteenth-note pattern: a vertical bar with a dot above it, followed by a sixteenth-note (solid black circle), and a sixteenth-note (solid black circle). The dynamic is (pp). Measure 83 begins with a sixteenth-note (solid black circle) followed by a sixteenth-note (solid black circle), and a sixteenth-note (solid black circle). The dynamic is poco e poco cresc.

Pno.

Mrs. Chan: Always with an exaggerated "classical" and fast vibrato. Slightly ingratiating. The 1/8-tome low tones and "ey" in the word "syest" should however become increasingly sharp and nasal (non vib.) throughout this scene (3). The tongue should be rhythmic and mechanic, rather than "natural".

Chan: *Cough* DEN er — den ny- — as- [t] og bes- [t] mir-ror-vor- [l]- d, DEN er den ny- as- [t] og mos- [t] hea[l]-thy af a- [ll]
