

Therese Birkelund Ulvo

Timelessness

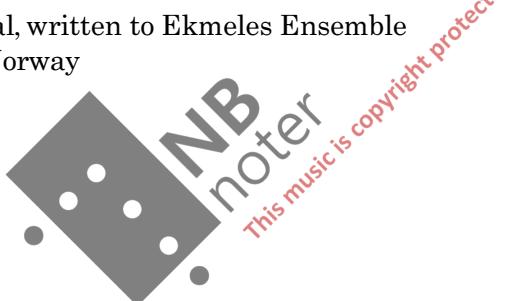

for vocal sextet, film, lights, and heartbeats

2023

Commissioned by Ultima Festival, written to Ekmeles Ensemble

With support from Art Council Norway

Durata: 24'

About the piece:

I wanted to work with time and timelessness, duration and periods in the piece. What is it when something is not timed? Is it timeless? Is that the same thing as forever?

Time is measured by the distance between two points in time. To grasp time - something needs to happen. If it is a question of the time of day, you use a clock that shows the time since midnight; if you are asked for a date, you need a calendar to find the number of days since the New Year; and if it is asked about a historical event, it is measured in years after "the birth of Christ". What is time? Is time the same everywhere in the universe, and can one imagine that it began to go backward?

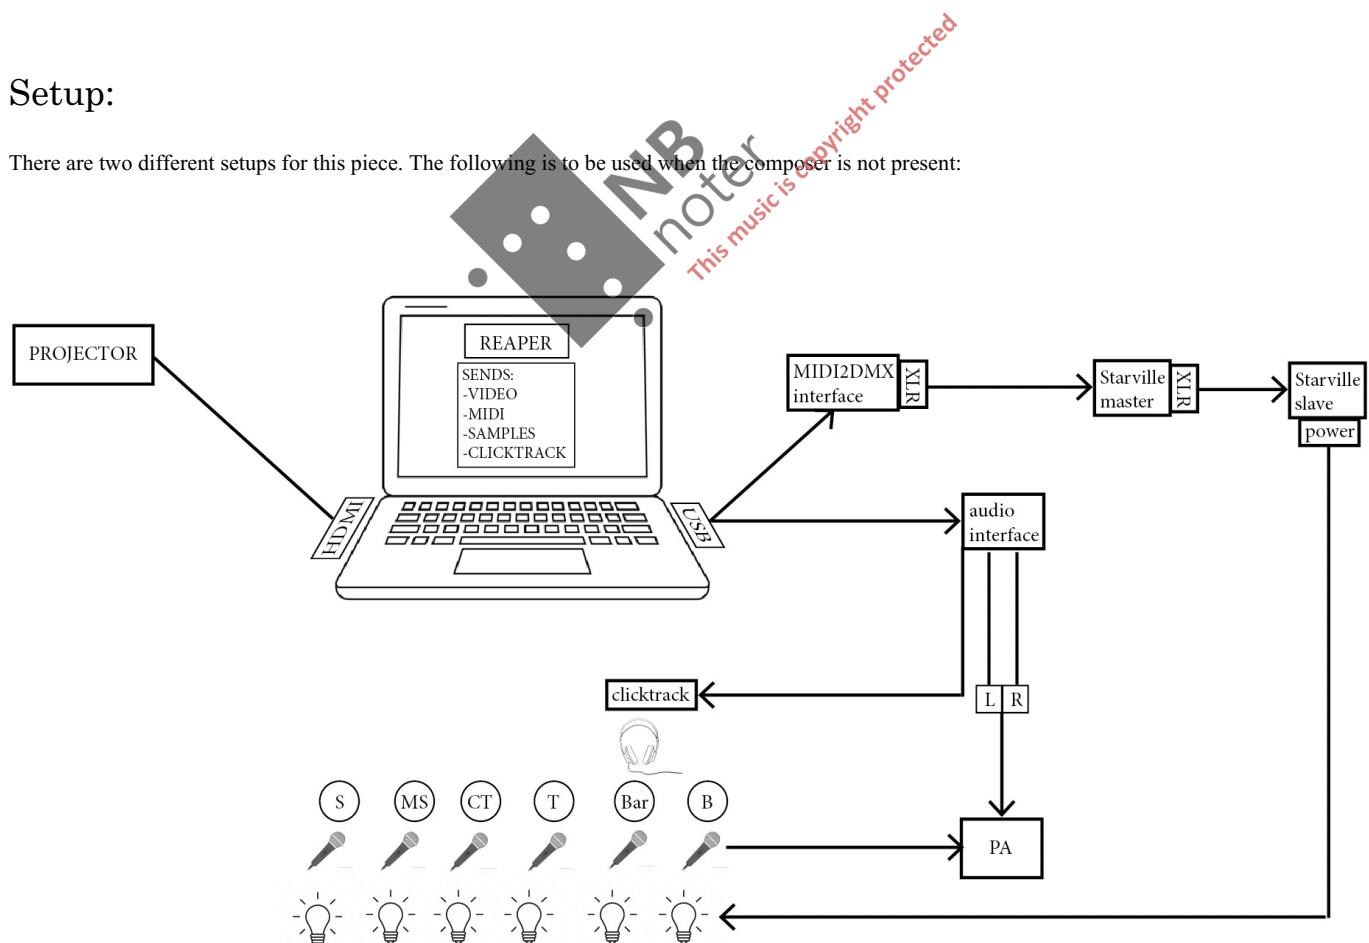

Every living thing has its lifetime and rhythm from beginning to end. When discussing time, we must keep alive the question as to what time it is. Time rules the lives of all people. Everything we think, feel, and do in life happens in time; in practice, we know what time is. Yet people have always needed help comprehending time. In older societies, time was considered a deity. Later some have claimed that it is something physical, others that it is mental. It could be neither or both. Is a moment filled with calm and timelessness what we are looking for? Getting out of time?

In addition to the voices, I have worked with video material from the Austrian film photographer Thomas Radlswimmer. Voices, pulse, breath, hearts - that beat and stop - meet the time that passes through a whimsical autumn day in Hardanger (Norway).

The video represents the stability of time passing and the variation of how we experience it. Sometimes fast, other days superslow. Constantly changing, always in process, and gradually moving between different expressions and focus. With nature, heartbeats, musical material, and the performer's breath, the aim is to create a collective experience of shared time.

Setup:

There are two different setups for this piece. The following is to be used when the composer is not present:

The ensemble needs six microphones for voice - Neumann KMS 104 or equivalent professional quality. They also need a full-range PA system of the highest quality.

Comments on notation and performance technique

A click track is provided for one of the performers so that they can lead the live-performing ensemble.

Breathe when necessary, but avoid transformations.

Make all glissandi as even as possible.

All text in [] is International Phonetic Alphabet (IPA)

[ʃ] - focus on overtones. Very light and unstable

[ʃo] - same sound as over, but shape mouth in [o] (same for all vowels)

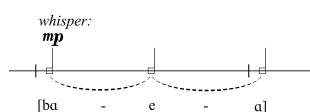

[tp] - Make this one sound by gluing the actions together.

Spoken: naturally

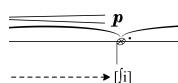

Whisper: keep the whispering voice continuous throughout the notated duration

one line = no pitch

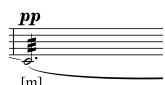

Dashed slurs describe sounds that are to be glued together.

- Rectangular noteheads are always whispering voices

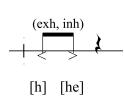

- dashed arrows: make gradual transitions between vowels

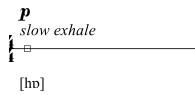

- glottal tremolo
NB noter
This music is copyright protected

- start on the lowest pitch possible

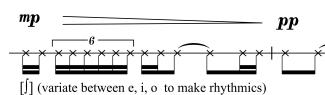

- "action" sound.

- sustained sound

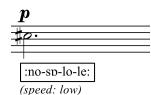

- repeating smooth transitions between the three sounds. Non-theatrical. (just sounds)

- Hold [ʃ], make rhythmic by changing vowels

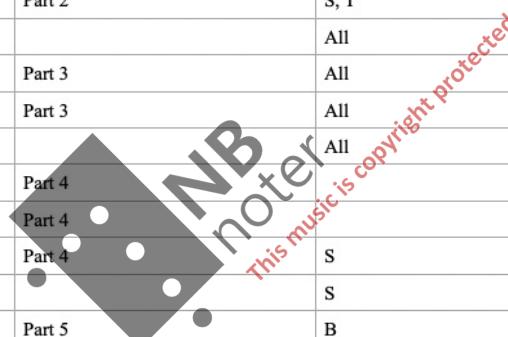

- make a small bend

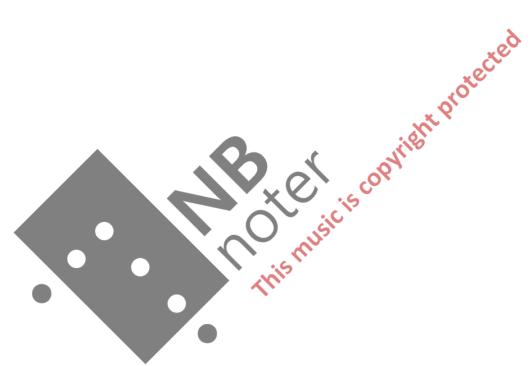

- "chanting like a priest." Head-voice. Continuously change sounds. Notice speed.

The musical score consists of ten staves, each representing a different vocal part: Soprano, Mezzo-soprano, Countertenor, Tenor, Baritone, Bass, Soprano (S.), Mezzo-soprano (M.-S.), Countertenor (Ct.), Tenor (T.), Baritone (Bar.), and Bass (B.). The music is written in common time (indicated by a '5' over a '4') and includes measures with a dotted half note followed by a quarter note. Dynamics such as **ppp**, **p**, and **mp** are indicated above the staves. Articulation marks like dots and dashes are placed under the notes. The vocal parts are labeled with their names in a small font below the staves. The score is divided into two sections: the first section covers measures 1-5, and the second section begins at measure 6. Measure 6 includes a dynamic change to **pp** and a vocal entry for the Soprano (S.). Measures 7-10 show sustained notes with dynamics **p** and **pp**. Measures 11-14 feature sustained notes with dynamics **p** and **pp**. Measures 15-18 show sustained notes with dynamics **p** and **pp**. Measures 19-22 show sustained notes with dynamics **p** and **pp**.
