(sats 4, detaljar for instrumentasjon fremst i partituret på "Vintersong")

«Tilstandar» er ein syklus kontratenor Daniel Sæther og eg har jobba fram over lengre tid. Tematikken kretsar om ei open tilnærming rundt menneske i naturen. Naturen rommar oss, og er samtidig til stades utan oss. Naturen gjer oss høve til å finna innsikt og opplevingar, og landskap til formskapande inspirasjon. Skiftande årstider er grunnlaget for den store syklusen i naturen. Me kan lett assosiera mennesket sitt livsløp med naturen sine skiftande årstider. Naturen gjennomgår kvart år dei samme endringsprosessane, men aldri på samme måte. Vårt arbeid lar seg inspirera av den samme sykliske tenkinga, og tanken om at tilstandane opplevest nye og kjente på samme tid.

I 2017 komponerte eg «Vintersong» for mezzo og tidlegmusikkensemble til dikt av Hanne Bramness. Verket var bestilt og urframført av Tora Augestad og Berlin-ensemblet Lautten Compagny på Hardanger Musikkfest. «Vintersong» med sine enkle og sanslege naturskildringar og barnlige betraktningar passar godt inn i vår syklus, så eg har tilpassa ein ny versjon for Daniel. Verket blei urframført med streaming pga koronaen, og er utgitt på CD av LAWO Classics.

Ut ifrå det større ensemblet i «Vintersong» har me laga mindre besetningar for kvar av dei andre satsene i «Tilstandar». Alle dei fire satsene kan framførast saman, med «Vintersong» som sentralt utgangspunkt. Syklusen blir utgitt samla på LAWO Classics.

Alle partitura er tilgjengeleg på NB noter (i kvar sine hefter).
Stykkene kan framførast samla eller kvar for seg, eller i ulike fritt valgte kombinasjonar.
